Live On-Campus Again Next Year!

NO COST INCREASE!
Select Your Room

The first approximately 400 current residents to complete their application will be able to select their own room of the available spaces in College Creek, Creekview, Campus Apartments, or Cypress for next year (or renew their current room). All bedrooms, regardless of room type, will continue to be single occupancy to provide for social distancing. Residents must have a positive student conduct record to return to Housing. Residents must also have their current year room and meal plan charges paid in full by the priority deadline on March 25 to receive a room selection time.

Priority Deadline

If you submit your application by noon on March 25, are in good financial standing, and have a positive student conduct record, and are a part of the first approximately 400 to complete, you will receive your room selection time notification on March 29. Other students will be guaranteed, assigned a room, or possibly be waitlisted.

Important Dates

**April 5 • Deadline to create Roommate Group due at Noon**
Residents have until noon to create or redo your roommate group. Members of the group, including the group leader, will be deleted if they do not have a room selection timeslot. If you need help, please contact the Housing Office. Once your group is finalized, make sure you verify your group.

**April 8 • Online Room Selection Day**
Online room selection times for returning residents will be scheduled from 9am – 5pm. You can make changes to your room selection online until noon on April 13. We will have staff available on April 8 to answer your questions and help you through the process.

**July 16 • Last Day to Cancel without Penalties**
July 16 is the last day to cancel the Housing Application. Those that cancel after July 16 will be charged a daily penalty for each day less than 30 days’ notice.
Online Room Selection

Online Room Selection Day will be April 8 from 9am–5pm. If you are one of the first approximately 400 current residents to complete your application, your myHousing account will show your room selection time. During your room selection time, you will have the opportunity to select your room for the next academic year in College Creek, Creekview, Campus Apartments, or Cypress. If you are unavailable during your room selection time, you can select a room after your assigned time until noon on April 13 when the online room selection closes. After April 9 you will need to be placed on the wish list to move to another area if you no longer want the room you selected. If you don’t go online to select a room and have a room selection time, the Housing Office will assign you to a room.

We will have staff available on April 8 to answer any questions.

Fill an Apartment with Your Friends

Returning residents can make a roommate group from 2-6 members to fill an apartment or suite. Groups can be coed and must be made up of all returning residents. Have a friend that’s coming to HSU and want them to be in your group? Contact the Housing Office, after you get your room selection confirmation, and we’ll work with you to make this happen.

How does a roommate group work? First, decide who will be the group leader. Pick your leader wisely! The group leader will create a group, name it and assign a group password. They will be responsible for the room assignments during the room selection time. The leader will add people to the group using members’ HSU ID numbers, or individuals can add themselves and friends to the group through their individual application process by using the group name and password. The leader of the group must first assign group members to rooms, and assign themselves after. All members will need to have completed their application before they can join a group.

Roommate groups do not get preferred times to select rooms. Being in a group does not guarantee you a room selection time. Everyone has a room selection time assigned to them independently. The group leader gets to use the best time assigned to any one person in their group. If you are not one of the first approximately 400 to complete your application, Housing Staff will remove you from the group. If your group leader doesn’t receive a room selection time, Housing will appoint a new individual. If you have someone specific you would prefer contact the Housing Office and we can change the leader. Groups with only a leader at the review deadline will be deleted. Roommate groups must be finalized by April 5 at noon.

A group leader can assign you to a room, but only you can cancel or change your room reservation once they have assigned you. If you change your mind, you will need to log into your account to cancel your reservation and select a different room by April 13.

Same Room Request

All areas are not automatically open to reassignment. If you wish to return to your same room next year, you may request to do so providing you currently live in College Creek, Creekview, Campus Apartments, and Cypress.

You will be able to request to return to your same room, after you complete your online housing application, in the Room Renewal menu option. If you don’t receive a room selection time then your same room reservation will be cancelled. If you are able to select your current room, and have a timeslot, you are done with the process. You will be able to see your room assignment in your application on the Application Status page. We will email you your room assignment and payment plan information in late May. If you request to return to your same room and later change your mind, you can cancel your same room reservation and choose another room during your room selection time. Once you cancel your same room reservation, your old room is relinquished and available for others to select it as their new room.

If you have a preferred roommate and are requesting to return to your same room, you will need to email us your request to bring your requested roommate into the same room. Please send your request to housing@humboldt.edu. We will notify you by April 8 if we are able to assign your requested roommate.
