Live On-Campus Again Next Year!
Select Your Room

600 spaces will be allocated to current residents for the 2022 - 2023 Academic Year. The first 600 current residents to submit their housing application will be able to participate in online room selection in April. To participate in the room selection process, residents must have their current room and meal plan fees paid in full and have a positive student conduct record. Residents that apply that are not in the first 600 will be assigned a room or waitlisted. If we have a wait list, priority will be given to new students before we begin to place returning residents on the wait list into rooms.

Priority Deadline

Current residents participating in the room selection process will have the first choice of available rooms in College Creek, Creekview, Campus Apartments, Cypress and select buildings in the Canyon. Please see the Theme & Community Housing section for more information about getting approval to live in these areas.

Online Room Selection

The first 600 current residents to submit their Housing Application for the 2022 – 2023 Academic Year, are in good financial standing and have a positive student conduct record, will be eligible to participate in the online room selection process. Online Room Selection Day will be on Thursday, April 14 from 9am – 5pm. If you are one of the first 600 current residents to submit your housing application, your myHousing account will show your room selection timeslot. During your timeslot, you will have the opportunity to select your room for the next Academic Year in College Creek, Creekview, Campus Apartments Cypress or the Canyon. If you are unavailable during your timeslot, you can select a room after your assigned time at any time up until 12pm on Monday, April 18 when the online room selection closes. After April 18, you will need to complete the Room Change Form in your myHousing account if you no longer want the room you selected. If you don’t go online to select a room and have a room selection timeslot, the Housing Office will assign you to a room.

Fill an Apartment with Your Friends

Current residents can make a roommate group from 2-6 members to fill an apartment or suite after room selection timeslots and waitlist notifications are emailed on March 30. Only current residents who are one of the 600 with a room selection timeslot can be in a group. Groups can be coed and must be made up of all current residents with room selection timeslots. Groups should be finalized by April 8 at noon.

How does a roommate group work? First, decide who will be the group leader. Pick your leader wisely! The group leader will create a group, name it and assign a group password. They will be responsible for the room assignments during the room selection time. The leader will add people to the group using members’ Humboldt ID numbers, or individuals can add themselves and friends to the group through their individual application process by using the group name and password. The leader of the group must first assign group members to rooms, and assign themselves after.

The group leader gets to use the best timeslot assigned to any one person in their group. Roommate groups must be finalized by April 8 at noon.

A group leader can assign you to a room, but only you can cancel or change your room reservation once they have assigned you. If you change your mind, you will need to log into your account to cancel your reservation and select a different room by April 18.

Same Room Request

All areas are not automatically open to reassignment. If you wish to return to your same room next year, you may request to do so providing you currently live in College Creek, Creekview, Campus Apartments, Cypress, and select buildings in the Canyon.

You will be able to request to return to your same room, after you complete your housing application, in the Room Renewal menu option. If you are not one of the first 600 current residents to submit your housing application, your same room reservation will be cancelled and you will be assigned to the wait list.

You will be able to see your room assignment in your application on the Application Status page. We will email you your room assignment and payment plan information in late May. If you request to return to your same room and later change your mind, you can cancel your same room reservation and choose another room during your room selection time. Once you cancel your same room reservation, your old room is relinquished and available for others to select it as their new room.

If you have a preferred roommate and are requesting to return to your same room, you will need to email us your request to bring your requested roommate into the same room. Please send your request to housing@ humboldt.edu. We will notify you by April 8 if we are able to assign your requested roommate.
